“I worked with Amy for 7 years in my job as Director of National Account sales with The P.A. Hutchison Company and before that at Victor Graphics, both book manufacturing companies.

Amy is a bright, professional individual that I enjoyed having the opportunity to work with. Her organization skills and ability to constantly look at the big picture, while problem solving day-to-day issues is striking. Her people skills rank up there with the best. She would be an asset for any company that is looking for a experienced, top graphics person with a keen eye who is a self-starter.”
